Warrant for Annual Meeting

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Wilton in the County of Hillsborough and State of New Hampshire qualified to vote in Town Affairs:

You are hereby notified to appear at the Town House in said Wilton, on Tuesday the thirteenth day of March next at nine o'clock in the forenoon to act upon the following subjects:

1. To choose all necessary Town Officers according to public Statutes.

2. To bring in your ballots upon the question as to whether the amendment proposed by the Convention to revise the Constitution shall be approved.

3. To hear the reports of Town Officers, Agents, and Committees and pass any vote relating thereto.

4. To see what sums of money the Town will vote to raise and appropriate to defray town charges for the ensuing year, including Maintenance of the Poor, Highways and Bridges, Street Lighting, Flushing of Sewers, State and County Tax, Interest on Debt, Health Department, Town Officers' salaries and expenses, Fire Department, Moth extermination, Cemeteries, Police Department, Serial notes and bonds, Free Library, Patriotic purposes, State Aid and Trunk Line maintenance, and miscellaneous items.

5. To see if the Town will grant the free use of the Town Hall for the following purposes: Roy Bent Post No. 10 American Legion Memorial Day. Roy Bent Post No. 10 American Legion and the Wilton Fire Depart-

ment for their annual party, and to the Public Schools for Memorial and graduating exercises.

6. To see what action the town will take in relation to construction of State Aid roads and raise and appropriate money for the same.

7. To see what action the town will take in regard to discount on taxes.

8. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

9. To see what action the town will take relating to Old Home Day.

10. To see what action the Town will take in relation to installing a light on Pine Valley Street.

11. To see what action the town will take in relation to buying a gravel bank and raise and appropriate money for the same.

12. To see if the town will authorize the Selectmen to dispose of some of the trees on Town property.

13. To see what action the town will take relative to installing fire alarm signal and raise and appropriate money for the same.

14. To see if the town will vote to resurface certain sections of Maple Street and raise and appropriate money for the same.

15. To see if the town will vote to finish the surfacing of Pine Valley Street and raise and appropriate money for the same.

16. To see what action the town will take in relation to repairing the floor in the Town Hall and raise and appropriate money for the same.

17. To see what action the town will take toward

rebuilding the retaining wall between the Memorial Lot and the Robbins Blacksmith Shop and raise and appropriate money for the same.

18. To see if the Town will authorize the Selectmen to purchase replacement chairs for the Town Hall or take any action relating thereto.

19. To act on a resolution requesting legislation: First, to fix the maximum price at which coal may be sold in any Congressional District or part thereof; Second, to provide for prior sales and shipments to consumers and retailers of coal.

20. To transact any other business that may legally be brought before said meeting.

Given under our hand and seal this twenty-sixth day of February, 1923.

JOHN T. HURLEY
WILLIAM E. HICKEY
WILLIAM F. WOOD

Report of Library Trustees

TRUSTEES

D. E. PROCTOR, President	DAVID WHITING
GEORGE G. BLANCHARD, Secretary-Treasurer	
C. ELIZABETH RICE	WILLIAM H. EMERSON
BESSIE F. BALES,	Librarian
JENNIE F. BARNES,	Assistant Librarian
A. E. SWALLOW	Custodian

REPORT OF THE TRUSTEES

Another year of success for the Gregg Free Library and for those who have enjoyed the benefits it affords. Some needed repairs have been made by placing guards upon the roof to protect from sliding snows. More than thanks are due to Mr. Henry L. Emerson for the removal of the unsightly stable and his gift of the site for a Memorial to those who fought the wars of our country from its first settlement to the present day.

Mrs. Barnes, our Assistant Librarian, was absent for some time caring for her daughter and for whose loss we extend our sympathy.

Mr. Warren P. Putnam, the custodian since the Gregg Free Library was established and who has so faithfully and conscientiously performed his duties, tendered his resignation on account of advancing years and was succeeded by Mr. A. E. Swallow.

It was thought best to close the library evenings at 8.30 in the interest of economy as "Black Diamonds" and electricity cost good money and railroads pay but meagre dividends, some not any. Economy must be practiced for the Library, for town, for state and na-

tion. Economy cannot too often be practiced even in personal affairs.

We trust the benefits given by the Gregg Free Library will be more thoroughly appreciated by the reading public during 1923 than ever before.

D. E. PROCTOR,
For the Trustees.

GEORGE G. BLANCHARD,
Treasurer.

REPORT OF LIBRARIAN

The Thirty-Third Annual Report of the Librarian of
the Wilton Public Library for the Year Ending
Januray 31, 1923.

The Library has been open 153 days during the year. The total circulation of books and magazines was 14,329, with an average circulation of 93. Although there has been a decrease in the circulation as a whole as compared with last year, the number of magazines and books of non-fiction taken out has increased.

The system of reserving books upon the payment of a penny for a notification post card is being tried and is meeting with so much favor with the patrons of the library that it will probably be continued.

The card catalogue has been rearranged so that we now have a dictionary catalogue, which is the form now in use in most libraries.

A case of about forty books on various subjects was borrowed from the State Library Commission. We were allowed to keep these books three months. They were given out the same as our own books and helped to tide over a period when we were unable to purchase any new books.

We are still unable to purchase as many books, particularly non-fiction which are more expensive, as we would like because of the lack of funds. This is the situation in many libraries throughout the State.

Respectfully submitted,

BESSIE F. BALES.

Report of Trustees of Trust Funds

JOSHUA F. FRYE, Chairman

WILLIAM L. STANTON, Clerk

DAVID WHITING, Treasurer

There has been received during the year one Trust Fund of \$200 for the care of a cemetery lot, making a total of 33 Trust Funds in the care of the trustees. Each of these trust funds are for the care of cemetery lots.

A statement is presented showing the amount of each fund, the income and expense for each fund, and where these funds are deposited.*

There has been paid to Edward W. Hesselton \$81.50 for the care of cemetery lots.

Respectfully submitted,

JOSHUA F. FRYE,

For the Trustees.

Report of Water Commissioners

The Commissioners have nothing out of the ordinary to report. A normal amount of service pipe troubles, leaks, etc., have developed and been attended to. There has been but little new work, and it isn't expected that there will be many more services added, under present conditions. As there are now 288 dwelling houses supplied with town water, it seems probable that nearly all houses within reach of the system are connected. In conformity with the vote taken at the last town meeting, we have installed a hydrant on the Wilton Center road, near the residence of E. B. Lyford.

In the spring the reservoir was given a thorough cleaning and the brush and bushes cut and removed for some distance back from the water's edge, adding neatness to the appearance, and materially reducing accumulation of leaves and rubbish.

During the fall months, when other places were reporting shortage of water, we made frequent trips to the reservoir, and always found plentiful supply.

The town is fortunate in having an adequate supply at a minimum cost for care and maintenance.

GENERAL EXPENSE AND CARE OF WATER WORKS SYSTEM

For the Year Ending January '31, 1923

Paid to:

Report of Cemetery Committee

The grounds of the several cemeteries have been well kept and are in an improved condition. There are no outstanding bills contracted by the committee. All the income of our special depositors has been expended as seemed best on individual lots and the same are in good condition.

The committee would suggest that the sum of \$400 be raised and appropriated for general care of the cemeteries and in addition that the sum of \$100.00 be raised and appropriated for permanent roads and improvement of Mt. Calvary cemetery, said sum to be expended under the supervision of the Cemetery Committee. The sum of \$400 will be sufficient to provide a caretaker for the summer months, which the committee advise.

DAVID WHITING,
GEORGE G. TOLFORD,
EDWARD W. HESSELTON.

Report of Auditors

The accounts of the following officers have been examined, covering business for the year ending January 31, 1923:

Selectmen, Town Treasurer, Trustees of Trust Funds, Judge of Municipal Court, Tax Collector, Library Trustees, and Trustees of the Hannah Howard and Isaac Spalding Funds.

All accounts are found to be correct, and the books in fine shape. We have been shown the various securities, and authority for all payments.

We have also examined the accounts of the District Treasurer for the year ending June 30, 1922, finding them correct, neatly kept, and all payments duly authorized.

Respectfully submitted,
WILLIAM H. EMERSON
ARTEMUS O. BARKER
Auditors of the Town of Wilton.

Report of Selectmen

To the Citizens of Wilton:

We hereby submit the following report for the year ending January 31, 1923, and trust you will approve the same.

State Aid Construction

The money appropriated for the construction of permanent highway was expended upon the Forest Road as directed at our last annual meeting. The work was done under the supervision of Mr. J. V. Tuttle and over two thousand feet was constructed. The road is now completed to a point opposite the residence of Mr. George C. Hobbs. Your Board of Selectmen would recommend the acceptance of state aid for the coming year and that it be expended upon the Forest road.

Highway Maintenance

During the past year a coat of tarvia was applied to the Southside Trunk line and proved to be very satisfactory, and while it was rather an expensive job, we believe the benefit would justify the expense, as a gravel surfaced road without a binder seems unable to withstand heavy traffic. The State Department have recommended another coat to be applied the coming summer and you will be asked to approve the same. The State Aid and Trunk Line roads have been under the care of Mr. Stephen R. Boutwell, and while the tarring of the road has entailed considerable more work, he has given entire satisfaction. The town highways have been under the care of Mr. J. V. Tuttle and we are of the opinion that taking into consideration the mileage and the amount of money available, our roads are as good as any to be found in the state. During the year a short piece of permanent road was built in Davisville, one half the expense was paid by subscription, the town

furnishing an equal share. This road was built under the direction of Mr. Tuttle.

Sidewalks and Streets

For several years our sidewalks have been in bad condition, especially Maple street, and your board would recommend that a permanent section be built during the coming summer. We would like to also call your attention to the new extension on Pine Valley street. About one half of this extension was surfaced two years ago. As the houses at that time were not completed it was decided to finish at some later date, and as the houses are now completed something must be done to make this street passable.

Town House

Very little has been needed in the line of repairs during the year upon the Town House. Our attention has been called recently to the condition of the floor in the hall, also some of the seats are in bad condition, but as this will be apparent to the citizens at our March meeting we have no recommendation to make. The stone steps at the end of the Town House are badly in need of re-laying and the town will in the near future have to take some action in the matter.

Robbins Suit

At the last session of the Superior Court for Hillsborough County a decision was rendered by the judge in favor of the defendant.

Financial

During the year the town debt was reduced, and this no doubt will meet with universal approval. We believe all town officers having the expenditure of the public money endeavor to be as economical as possible, but with the continued high prices of both labor and material the work of carrying on the town affairs is somewhat costly. However we have been more or less fortunate in this respect during the past year.

During the year the selectmen purchased an adding machine for the use of the town officers. This has occasioned some additional expense, but we hope it will pay for itself in the future.

In conclusion we wish to thank the citizens for their co-operation during the year and trust you will approve our report.

JOHN T. HURLEY,
WILLIAM E. HICKEY,
WILLIAM F. WOOD;
Selectmen of Wilton.

Report of Memorial Committee

At our last annual town meeting it was voted to accept the gift of the old stable lot from Mr. Henry L. Emerson, and at the adjourned meeting the sum of \$2000 was voted to be raised by serial notes to fix up the same. Some delay was experienced in starting the work but the lot has been curbed, filled and graded, and when grassed over will, we believe, be a credit to the town. The foundation is in place for the marker, but owing to the lateness we decided to wait until spring to place the stone marker, and hope to have it ready for Memorial day. Some additional expense was occasioned by having to rebuild a portion of the rear wall, but it was found necessary for a permanent job. The stone work was under the direction of Mr. A. D. Young and considerable delay was experienced in obtaining stone.

We present herewith an account of money expended. The bill for stone has not been received and is not included in the statement. The prices paid for labor employed in said work was as follows: Mr. Young, \$5.00 per day; helper, \$3.50 per day; Mr. J. V. Tuttle, \$5.00 per day; laborer, \$3.00 per day.

W. E. HICKEY,
Chairman of Committee.

Detail of Work Upon Soldiers' and Sailors' Memorial Lot

Paid:

D. Whiting & Sons, use of derrick, teams,

SCHOOL CALENDAR, 1923-1924

Fall Term: High School 16 weeks from September 4, 1923, to December 21, 1923. Grade Schools, 15 weeks from September 4, 1923 to December 14, 1923.

Remainder of the year will be divided into three periods as follows:

First Period: All schools 7 weeks from January 1, 1924, to February 15, 1924.

Second Period: All schools 7 weeks from February 25, 1924 to April 11, 1924.

Third Period: High School 8 weeks from April 21, 1924 to June 13, 1924. Grade schools 7 weeks from April 21, 1924 to June 6, 1924.

NO SCHOOL SIGNALS

Three long blasts of the whistle sounded twice at 7:45 o'clock A. M. indicates that there will be no sessions of the schools during that forenoon. The same signal at 12:30 P. M. indicates that there will be no session in the afternoon.

REPORT OF THE SCHOOL BOARD

To the Citizens of Wilton N. H. the School Board submits the following report:

General Condition of the School

We are pleased to be able to say that we firmly believe that we can report a year of progress and improvement in the general condition of both our High and Elementary schools. Mr. Mason is now engaged in his second year as Headmaster, and we were extremely fortunate in being able to retain intact our entire teaching force in the village school as it existed at the close of the school year last June. Such a situation tends to improve the morale and general standard of the school, and we believe that a great deal of credit is due the entire teaching force, and particularly Mr. Mason, for the improved conditions.

Last March our hearts were saddened by the death of our sub-master, Mr. Louis H. Smith of Hartford, Vermont. Mr. Smith was an earnest, faithful, and conscientious instructor and had won the respect and regard of teachers and pupils as well as others with whom he came in contact. We were fortunate in being able to secure the services of Mr. Claiborne H. Young of this town to fill the vacancy caused by his death.

Rural Schools

Our rural schools all have new teachers this year and we believe we are particularly fortunate in having secured such competent teachers, for which we must give due credit to Mr. Currier who was largely instrumental in securing them.

Individual Work

This year we have also been fortunate in being able to give such of the pupils in the elementary grades as were, for some reason or other, backward in certain

studies, special instruction and tutoring Mrs. Fitch, our music teacher, has done this and we believe the results obtained fully justify the expense which has been incurred. In addition to helping the individual pupils it has relieved the regular teachers of the necessity of giving so much attention to those cases and thus enabled them to devote more of their time to their classes as a whole.

Crowded Conditions in the Grades

In connection with this matter we wish to call attention of the citizens to the crowded condition in our third, fourth, fifth and sixth grades, where two teachers are handling two grades each. Under present conditions the classes are so large that we believe it impossible for one teacher to give proper instruction to all. These grades come during a very vital period in the education of our youth, and we believe it imperative that something be done to relieve the crowded conditions. Accordingly we strongly recommend that the district raise money enough to enable us to secure an extra teacher. Mr. Currier's report will explain this matter more in detail.

About Closing One Rural School

The school board is considering the advisability of closing the Intervale school in the event of having an extra teacher at the village school. The Intervale school house at the present time needs considerable work done on it in order to make it really satisfactory. The walls and ceiling must be painted and whitened and the toilet facilities must be altered in order to conform to the sanitary requirements of the State Board.

Attendance at Center School

The school at the Center continues to have a fairly large attendance, children coming from both West Wilton and Davisville, serving to enlarge the enrollment, and we anticipate an attendance for several years to

come large enough to warrant us in keeping the school open. Such being the case it will be necessary for us to alter the toilets so as to conform to the requirements of the State Board, and otherwise renovate the school house.

Heating System at the High School Building

Regarding the heating system at the High School building we wish to say that it has given fairly satisfactory service this winter. The main trouble at present seems to be the difficulty of obtaining sufficient humidity in the air of the class rooms. This lack of humidity we believe tends to increase the prevalence of sore throats, etc., during the winter season. The committee appointed last year to investigate the heating plant will bring in a report of their own.

Health Work

In addition to the regular medical inspection a successful dental clinic was held at the school last spring, and was repeated this winter. For the first part of the year we were without the services of a school nurse, but in December Miss Higgins was engaged by the Supervisory Union as nurse and since then has been devoting our proportional share of time to our schools.

Desirability of Parents Keeping in Touch with Schools

In closing we wish to call attention to the desirability of all parents keeping in touch with the schools as much as possible by visiting class rooms, and attending the various meetings held concerning school work. In this way only can they keep in touch with school conditions and be in a position to offer constructive suggestions as to the manner in which they may be improved.

PHILIP C. HEALD
EDWARD J. ABBOTT
JESSIE L. HATCH

School Board.

BUDGET

Budget of proposed expenditures in the School District
of Wilton for the fiscal year July 1, 1923 to June 30,
1924 and recommendation of sums to be assessed

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Wilton:

Herewith I submit my fourth annual report as Superintendent of your schools.

For a basis of comparison of the enrollment statistics for last year had this the figures for the first sixteen weeks of each year are used. The total enrollment this year is 321, 256 in the elementary grades and 65 in the high school. This represents a gain of 47 pupils in the grades and a loss of 4 in the high school. Further analysis shows that 29 more pupils are enrolled in the village schools and 18 more in the rural schools than last year. The principal gains in the rural schools have been at Abbott Hill and the Center.

Attendance figures for last year were very satisfactory. The average for all schools was 94.76 per cent or 1.65 per cent above the average for the state. Again the best attendance record was made in Miss Ellen Doherty's room although the percentage was not much higher than that attained in Miss Sweet's room where a good gain over the previous year was shown. The most noteworthy gains this year are in the high school and in Miss Mary Doherty's room.

All of the changes to be noted in the teaching force for the present year are in the rural schools. In filling the vacancies caused by the resignation of Miss Rideout, Miss Unwin and Miss Abbott we were fortunate in securing trained teachers of experience. Both Miss Doris Potter at Abbott Hill and Miss Ruth Richardson at the Intervale school are graduates of Keene Normal School, while Miss Grace Carr who has the school at Wilton Centre, has attended two summer sessions at the Normal School. Under the guidance of these competent teachers very satisfactory progress has been made. This is particularly true in the lower grades

where the classes are larger and competition between pupils more keen. At both Abbott Hill and Wilton Centre the fact that about one-half of the children enrolled are in the first two grades insures good sized schools in these communities for some time to come. From an educational standpoint it would seem desirable for the children in the seventh and eight grades in the rural schools to attend school in the village. The classes in both these grades are very small as the table appended shows. Pupils lack the incentive of competition with their classmates and the stimulating influence of a more varied program. In the grammar school at the village the work is wholly departmentalized, the pupils thus getting the advantage of specially trained teachers in each subject. This plan could be effected at a low cost as the round trip from Wilton Center through French Village is only five miles.

For the first time in many years, there are no changes to report in the corps of teachers in the village schools. The retention of the same competent teachers has resulted in continued progress and development. The effects of this permanency in the teaching methods employed in the intermediate grades for several successive years are becoming apparent in the work of the pupils in the upper grades. They appear to be better drilled in the fundamentals and have the faculty for more sustained effort than classes now entering high school.

Some new features have been introduced this year in the work of the elementary schools. For several years in New Hampshire no particular system in penmanship has been either used or recommended except in isolated cases. While uniformity in slant and correct formation of letters have been emphasized yet the failure to adhere to any particular system has apparently resulted in penmanship becoming a lost art. The children in Wilton were no exception to the general rule.

To improve the handwriting in the schools Houston's Lessons in Penmanship have been introduced. This is a simplified system with the emphasis placed on drill and careful attention to details. It is too early to predict results but many children are working earnestly and have already improved their handwriting. New spelling lists have been placed in the hands of the teachers of all grades. They are complete for eight grades and contain all of the words in most common use. New geographies for pupils in the fifth and sixth grades have been purchased and the series of arithmetics started last year has been completed. For the past two years special emphasis has been placed on reading, both silent and oral, arithmetic drill and problems. The effort of the teachers has apparently borne good results for in the standardized tests in these subjects recently given in grades three to eight the children attained ranks above the average for other parts of the country. In spelling, handwriting and language, however, the scores were below the average. To these subjects therefore special attention will be given during the remainder of the year. Tests will be given again in May when it is hoped that standard scores may be made in all subjects. Progress record cards on which are recorded the scores in the different subjects are made out for each child. Teachers may then discover and remedy the weaknesses of individual pupils. It is planned to give these tests twice each year the purpose being, as may be inferred, to measure the results of teaching and thus improve instruction.

Under the wise and sympathetic leadership of Mr. Mason entirely satisfactory progress is being made in the high school. Retention of the same corps of competent assistants has resulted in better coordination of the work and in improved instruction. While not wishing to detract from the splendid work being done by other teachers, I wish in this report to call attention particu-

larly to the work of Mr. Young in the department of agriculture. In less than a year great progress has been made in organizing and systemizing the work of the department. In the shop a properly appointed tool room has been built, a lumber rack, and racks for boys' projects constructed and the work benches repaired. All tools have been repaired and put in good working condition. The boys have taken great interest in assisting with these improvements and take pride in seeing that the tools are kept in their proper places and in good condition. Besides carpentry the shop work includes this year, forging, soldering and harness repairing. Accordingly some outlay has been necessary for tools and materials to carry on the work. The agricultural room has taken on the appearance of a real work room with illustrative material of all kinds displayed on tables and shelves. Mr. Young has organized a Co-operative Club among the boys who take agriculture for the purpose of buying materials and selling produce to better advantage.

With an enrollment of 54 in the fifth and sixth grade room and of 50 in the third and fourth grade room the time has come when another teacher should be provided for these four grades. There is every indication also that these grades will be still larger next year. My recommendation would be therefore that a teacher be placed in charge of the third grade while the fourth grade be grouped with the lower fifth and the upper fifth with the sixth. The probable enrollment in each room would be about 35. To effect this change it would be necessary to use the assembly room on the first floor as a class room. While the State Board would approve this expenditure of money for an additional teacher, it would be necessary for the town to raise the money for the first year's salary in as much as state aid for any year is always determined by the budget of the previous year.

Miss Myra Ellis resigned her position as school nurse the last of September to accept a state position under the Towner-Sterling Act. Although regretting her loss, we were exceedingly fortunate in securing Miss Christine Higgins to carry on the work. Well qualified by training and experience and actuated by high ideals of service she has made splendid progress in getting the work systematized in the various towns of the district. From her report one may get a good idea of the services which a school nurse should render. Statistics of the nurses work as well as the results of the medical inspection by the school physicians are incorporated in this report.

The purpose of the dental clinic, how it was organized and how financed, were matters discussed at length in last year's report. It remains here to speak only of its accomplishments and the work of the present year. At the clinic last year 106 children received treatment for defective teeth. The importance of this as a health measure cannot be overestimated. Had it not been for the clinic service the majority of these children would again have been reported for defective teeth. Many children however did not avail themselves of the advantages of the clinic so that again many are reported by the physicians. We owe much to the Red Cross for the financial assistance given and to the clinic committee for the valuable services which it has rendered. This year the Red Cross has again pledged its support although it was not necessary to advance as much money as last year. The attempt is being made to make the clinic as nearly self supporting as possible by charging \$2.00 per hour instead of \$1.50. It is too early to speak of the results of the work this year, but it is likely that between 75 and 100 children will be treated.

During the past year there have been many evidences of the good will and cooperation of the towns-

people in our various school activities and undertakings. The annual school fair has come to be looked upon as a school and community undertaking in which all are vitally interested. Its success last fall was due to the united efforts of all elements, teachers, pupils and citizens. The proceeds of the fair were used in the various departments at the school to purchase materials and equipment which could not be otherwise obtained. Enough money is now available to complete the tennis court in the spring and to purchase lumber for the much needed playground equipment. We are much indebted to Mr. Edward Abbott and to Mr. David Whiting for the valuable assistance in carting gravel for the court. I wish to take this opportunity also to thank all those who have made gifts to the school or who have otherwise rendered personal assistance.

In conclusion, may I thank the townspeople for their hearty cooperation and the teachers and School Board for their loyal support.

Respectfully submitted,

R. P. CURRIER,
Superintendent of Schools.

HEADMASTER'S REPORT

To the Superintendent and School Board of Wilton:

I herewith submit my second annual report as Headmaster of Wilton High School.

Attendance in the high school has improved this year, the records of several pupils are far better, which in nearly every case is reflected in the school-room work. In the seventh and eighth grades the attendance has not been as good, due mostly to sickness. Twenty-three pupils in the high school and eight in the seventh and eighth grades did not miss a half day during the first 23 weeks of this school year.

Few changes have been made in the courses of study. A business curriculum has been added which gives boys, who are not interested in Latin or Agriculture, an opportunity to prepare for the business world. Both domestic science and agricultural courses have been made more practical and broader. Domestic Arts pupils made jellies, pickles and preserves which are sold by the department. Agricultural boys have shown keen interest in harness repairing, tin-smithing, and general farm work. I feel that academic work has been well planned and prepared by both teachers and pupils.

Fourteen pupils enrolled in the agricultural curriculum; fifteen in the domestic science, two in the business, and thirty-three in the academic or Latin.

Many of our social events have been scheduled after Lent in order that the academic work might be well begun during the first half of the year.

The agricultural fair showed the result of organized work. There were good exhibits of poultry, bees, bee-hives, and apple packs, as well as vegetables flowers and the domestic arts' canned fruits and vegetables. As part of an excellent program we were favored with an

address by President Hetzel of New Hampshire State College. May I at this time thank those who donated food for the supper.

Of the eight members in the graduating class of 1922 three attend Keene Normal School; one Clark University; and one George Washington University. One at least has attained high honors and so far not a single low rank in any post graduate work has been reported.

We have received valuable help from our friends this year. For Wilton High School I wish to thank through you, those who have given so generously of their time and property. Through the kindness of Mr. Stanley Abbot, executor of Mrs. Louis Berry's estate, we have been presented with a good piano by one of the heirs, Mrs. Delsie Hill of Manchester. Mr. Edward Abbott and Mr. David Whiting have given material help on grading the tennis court. This has given courage to the boys and teachers to carry on the work.

Mr. Shea, Mr. McGettigan, and several men of the town have generously coached the basketball team and refereed the games. Several other gifts have been received by the different departments and they have been appreciated.

Respectfully submitted,

WALTER L. MASON

Headmaster.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent of Schools:

Music in the Wilton Public Schools has progressed in the usual way during the year. As the aim of public school music is to inspire appreciation of good music on the part of the child the books have been selected with that aim in view. The lower grades are taught by imitation and suggestion. The text books are put into use in the third grade and are used up to and including the eighth grade. These books are of the New Educational Music Course, published by Ginn & Co.

The pupils in the High School are working on four-part songs and singing from Community Song Books. These books were purchased in the fall together with some music books for the grades. Pitch pipes were also purchased for the teachers who were not supplied.

The pupils are now preparing a musical play to be given the first week in May. This play calls for children from the first grade through the High School.

The hearty cooperation of the Superintendent, the teachers, and pupils is greatly appreciated and we are looking forward to a very successful year in the music department.

Respectfully submitted,
MARION A. KING FITCH
Supervisor of Music.

REPORT OF THE SCHOOL NURSE

Report of Health Supervision from January, 1922 to January, 1923

To the Superintendent of Schools:

To help to prevent disease, to help to correct defects, and to help to educate mothers, pupils and townspeople of the importance and scope of the work, are the three cardinal principles of the nursing service in the schools.

Prevention

Because the schools are a medium for the spread of communicable diseases, one of the first duties of the nurse is to be on the lookout for symptoms. **Never** to attempt to diagnose, but always to advise that a physician be consulted at once.

Always troublesome factors among groups of school children are pediculosis, skin diseases and slight infections. Every mother wants her child protected against these things, and who is to serve as a protection but the nurse. For years the teachers have given that service but as their regular duties increase each year, and because their time is already filled to overflowing, surely we cannot expect more of them. So the nurse should serve in the capacity of friend and helper between the teacher and the home. To explain to the mother, to advise, and to help as to care and treatment.

The accidents among children at school should be reduced to a minimum but even with great care as to the surroundings and with supervised play, there are still going to be slight accidents. Under such conditions every mother will feel relieved to know that there is a place for adequate first aid, and through the efforts of the teachers and the nurse it will be properly administered.

All other dressings are done only with the parents' permission, to supplement the home care, or to teach the pupils the best methods to use at home.

During the fall when so many children had impetigo, the many dressings done at school were only to help the parents who were already doing their best, to stimulate others, and to demonstrate the best method. These dressings were done only under the orders of Dr. Hatch, one of the school physicians, and only with the parents' permission.

Under prevention too may well be grouped the physical examination, when the nurse is present only as an assistant to the physician, and to receive from him any special advice or instruction.

Correction

After the medical inspections have been made the home visits by the nurse should follow. So many of the reports are not understood, so many feel that it is all interference, and others that it is unnecessary.

Many mothers do not realize that first teeth should be taken care of to better insure sound second teeth, or that adenoids do interfere with mental and physical development, or that inflamed eye lids may mean eye strain, and so on.

Other mothers may not realize that the very thing we do **not** wish to do is either to interfere or to assume undue responsibility. Parental responsibility ought not and must not be omitted from any public health plan, and the moment it is, the whole program is a failure; something is radically wrong. This must never be lost sight of, because then and only then is the school health work harmful.

Sometimes the home visits are to help the parents to secure treatment which is not available in their own town. And many times the home conditions are not conducive to good health.

Clinic service should be organized whenever facil-

ities are not already provided in the town. Time and money are elements entering into all transactions out of town, and it is to cope with these, and still provide the best of medical care that clinics are oftentimes organized.

Education

Through talks by the nurse in the schools, through the press, by parents' meetings and by films and slides, an educational program should be continuous and intensive.

To help the parents who are already teaching health habits at home, and to enthuse and to stimulate the children whose home instruction is perhaps a bit careless.

Always and forever the nurse should be a social worker, keen to the responsibility and trust of anyone who goes into many homes and knows of their inmost secrets and always ready to serve. Never forgetting that the work can itself be healthy, only when she realizes that the parents are first and foremost, that the teachers have been working on many health problems since schools began, that the work could not be financed but for the backing of the townspeople, and that she is but a cog in the wheel to be a help to all.

If the school is to develop minds to make better citizens then the physical development cannot be ignored.

Junior and Senior High School
